Vantage to showcase Serrenia at Cityscape

Dubai :Wednesday, November 15, 2006

Serrenia, the ultra luxury new residential resort and hotel designed by Foster & Partners on Egypt's Red Sea Coast, will be exhibited at Cityscape 2006 by London-based Vantage Real Estate Development.

Serrenia provides uniquely designed and exclusive residences as well as a new destination for the rich and famous in Sahl Hasheesh that want to explore the Red Sea region in complete luxury.

Vantage said Serrenia is a futuristic vision for ultra luxurious real estate development projects. After two years of research, Vantage chose a location unique in its geographical location and natural beauty, said a spokesman.

In addition to the luxurious residential units that range from palaces to villas to apartments, the project includes a one of its kind design seven-star hotel to service Serrenia residents and guests, and a marina that can accommodate more than 300 yachts.

The Foster designed project is set on a three-million square metre and meets the needs of Serrenia guests whether they choose to reside in the palaces, villas or apartments.

The construction and operation of Serrenia will be done by the world's leading companies each in their respective field.

Vantage chose Dubai for its regional launch of Serrenia due to Dubai's importance as a global economic center, according to vice-chairman for finance and strategic planning Homi Mullan. **TradeArabia News Service**
